Advertising Texas.

passenger department of the Mis souri, Kansas and Texas railway has issued a pretty pamphiet setting forth the advan-tages of the state of Texas, the cover page showing a highly colored galaxy of stars with one brighter and bigger than the rest marken "Texas." and the inscription from Pope, "Ye little stars hide your diminished rays." Col. Gaston Mesiler, general pas-senger agent, will furnish copies to init is composed of admirably condensed

statistics regarding Texas, her crops, their value, prices of land, etc., and will doubt-less prove an invaluable advertisement for Texas, and prove the means of inducing a large immigration.

Special to the Gazette.

San Antonio, Tex., June 19.-Bids were opened to-day for the construction of the San Antonio and Aransas Poss railway from Lexington to Lott a distance of about sixty-five miles. Under the order of the Forty-fifth district court the lowest bidder ras to be awarded the contract. McFlynt Exemedy offered to do the work for \$300. 000, to be paid in reserver's certificates, and will get the job. The building of this road will close up the gap and complete what is known as the Waco extension. It will open the richest cotton producing country in Texas. Work will begin immediately and will be pushed to an end before the first of the cotton crop is marketed. The New York and other bondholders, repre-senting \$15,000,000 of the road's indebtedness, are in favor of the proposed work.

Chattanooga's New Road.

CHATTANOOGA, TEXN., June 22 - The outhern railway from here to Gedsden, seventy-two miles, is completed, and regu-lar train service commenced to-day. The ndy a Chattanooga enterprise.

Mr. Thomas Gavin, at 603 East Bluff street, relaims to have the largest madstone in the country and his testimony is correlated by two or three physicians in Fort Worth, who say it is the finest and largest one they have ever seen. Mr. Gavin says that his father took it from the stomach of a white deer, which he had found dead in the Ozark mountains in Missouri. The madstone is almost the size of a hen egg, irregularly shaped, with one side porous and intersticed like a sponge. The porous side is the one supposed to have the healing and drawing qualities. The stone was boiled in milk and blood to clean and disinfect it of matter extraneous to its anti-poisoning qualities. Mr. Gavin says that after use it is dipped in milk to clean of poison, and then it can be applied again. Mr. Gavin has been offered \$100 for the stone, but will not take less than \$200. If he does not set it is the will send it to the not sell it he will send it to the

The Farmers' Alliance. The Farmers' Alliance will held an ingportant convention in this city on July 10 and 11, at which many of the most promi-nent Alliance men in the South will be present. It is expected this meeting will result in lasting benefit to the organization in Texas, and as a result there is consider-able activity in Alliance circles in prepar-

ABOUT FORT WORTH.

Tuesday the real estate market was somewhat dull, the transfers amounting to but little, but yesterday there was quite active dealing, as shown by the number of recorded transfers. In the purchases yesterday were two homes bought by people who have lately come here to live, one of them being Judge Randolph.

English and American loan companies yesterday placed \$99,400 in Fort Worth on real estate security. All but \$900 of this amount will be used in improving property in the city. The sum of \$6500 will be invested in a manufacturing enterprise that

soon be in running order. Fort Worth people yesterday paid off iens on real estate to the amount of \$28.-75 and the releases of vendor's lien notes lied for record. This is certainly a good showing, evidencing that our people are financially strong.

There is talk of two new banks for Fort

Worth, one to be established by people liv-ing in Mississippi and Fort Worth, and the other by persons formerly living in New York and Connecticut

A Big Day at the Brewery. President Gannon of the Brewing com-

only was a well pleased man last night when upon looking over the books to see the business done during the day he found that 1160 kegs of beer had been shipped out of the city in the twelve hours. The company yesterday placed the largest order for revenue shapes over son out of the city in the twelve hours. revenue stamps ever sent out of Texas. It was for stamps to the amount of \$3000. On July 4. President Gannon says work will begin on buildings which will double the capacity of the brewery.

Investing Here

A very heavy sale has recently been made of Arlington Heights property to an East-ern syndicate. Capitalists of Massachusetts and Connecticut have bought twenty blocks, not for speculation, but to improve it by building a good class of houses which will be sold on easy payments. Some of this work is already under way and will be continued right along. Mr. H. W. Tallant of the Chamberlin investment company said vesteriary that every dollar of the said yesterday that every dollar of the money that would be expended would come from the outside. The syndicate has formed an improvement company to carry on its operations.

St. Patrick's Church.

It was decided when Bishop Brennan was in the city that it would be advisable to borrow a sum of money large enough to so far advance building operations on the grand edifice as to make its early occupancy possible. The Catholies in this city have acted on the matter and have a proposition to loan \$25,000 to the church at 7 per cent interest. The matter will be laid before Bishop Brennan, and if he approves it the loah will be made and the work pushed. The pians which are being followed in the construction of the church contemplate an edifice to cost over \$100,000, and a considerable portion of this amount has already been expended. The members of the church here take the ground that practical charity gives work to people when they need it, and for this reason they wish to give all the labor they can to skilled mechanics during the dull summer months. It is hoped to hold Christmas services in the

The Rolling Mill.

Manager Beach of the rolling mill said yesterday that six or eight men were kept busy at the rolling mill now, building the furnaces, etc., and that by August the comwould be rolling some iron, but that by September the mill would be in full operation. This winter from lifty to one hun-dred men will be employed at this institution, adding that many to Fort Worth's tin-bucket brigade.

The Arlington Hotel.

If Fort Worth secures the Arlington Heights hotel, it will this winter become a great winter resort and next summer will be filled. It was understood yesterday that arrangements to build this hotel had finally been made. There was some staking off of ground on the Heights overlooking the Trinity valley yesterday, and the knowing ones said it was laying out the site for the

Notes of Progress

While not positively decided, it is more than probable that work will before long begin on the Arlington Heights hotel, ac-cording to the plans prepared some time ago. It is rumored that all arrangements have virtually been completed to begin work. This hotel will be one of the finest of the kind in the South, and if it is com-pleted in time Fort Worth and Arlington Heights will be known as one of the most

pleasant winter resorts in the state of Texas.

The beautiful park and lake in North Fort Worth are about completed. When the bridge is completed and cars running this will become a favorite resort. A very pretty parced will be built near the artesian pretty parced will be built near the artesian. this will become a favorable presty pagoda will be built near the artesian well.

Work will begin next week on the Polyburn will be

technic street car line. This line will be about two miles long, and will run to the cotton mill as well as to the Methodist col-lege. Quite a number of people have bought lots in the college addition who will build there as soon as the car line is run-ning. Several persons from Hunt county and Hopkins county intend to move to Fort Worth and educate their children here.

It is intended to pipe the artesian water now flowing so copiously from the big well at the packery to the highest floor of the building, about ninety feet above the well. This well is one of the greatest in the

Both the rolling mill and the Dixie wagon factory will soon be in operation and the tin bucket brigade will be increased several

score.
The Fort Worth candy and cracker com pany are debating doubling their capacity

The brewing company set its bottling machinery at work yesterday and found it to work to a charm. A large number of bottles were filled, stamped, corked and packed ready for shipment. The Dixie wagon company expect to have all their money arrangements made this

Advice to Mothers. DENOUNCED MASONRY.

Few Scathing Remarks From a Ministe Causes a Commotion-A Mason Has His Say, and Leaves the House.

Boston, Mass., June 22.—During the regular meeting of Baptist ministers in Chapel hall this afternoon Rev. J. B. Stoddard addressed the conference, at its suggestion, upon the influence of secret societies upon churches, and in the course of his remarks strongiv denounced Massays. remarks strongly denounced Masonry, declaring that when a man swears allo

to it he swears allegiance to a code an-tagonistic to God.

Rev. Mr. Cleveland of Melrose, who was in the audience, arose to a point of order and, with suppressed emotion, said "I am a Mason, and have listened to this scathing stigmatism of the order in patience, but I cannot listen to this unjust and uncalled-for abuse."

Chairman Moran put the question to the meeting on sustaining the point of order and it was defeated—50 to 7. Instantly Cleveland arose and addressed the secretary as follows: "I request that you drop my name from the roll of membership of this conference. I do not care to be a member of any body that refuses to sustain a decent point of order," then taking his hat he left the hall and Stoddard finished his address.

The International Association, Houston, Tex., Jan. 19, 1889.—Copy of resolution unanimously adopted at meeting of Texas railways in New Orleans, December 29, 1888, at which were present: Houston, East and West Texas railway. Houston and Toyas Cantral, railway, International and Texas Central railway, International and Great Northern railway, Missouri Pacific and St. Louis, Iron Mountain and Southern railway, Missouri, Kansas and Texas railway, Southern Pacific Co., Atchison system, St. Louis and San Francisco railway (by proxy), St. Louis, Arkansas and Texas railway, Texas Central railway, and Texas and Pacific railway. "Resolved, that the Galveston and Dallas

News be paid at the rate of \$12,000 per year for six months from the 1st of Jan-uary, 1889, it being optional with the roads to continue payment of this fund there-after; the chairman to arrange such pay-ment to include the regular advertising of the railways (any special notices must be paid for at regular rates); the above amount to be assessed against the railroads of the International association operating in the state of Texas, which includes the Gulf, Colorado and Santa Fe railway, Denver, Texas and Fort Worth railway Houston, East and West Texas railway, Houston and Texas Central railway and Texas Cen-tral railway, International and Great Northern railway, Missouri, Kansas and Texas railway, San Antonio and Aransas Pass rail-way, Southern Pacific railway, St. Louis, Arkansas and Texas railway, St. Louis and San Francisco railway and Texas and Pa-cific railway. The proportion of each road to be paid as per assessment of the chair-man of the International association." Subsequently, and at request of A. H. Belo & Co., owners, the proposition to make the time one year instead of six months was submitted to the above named railroads and accepted, except by San Antonio and Aran-sas Pass, which accepts for six months, and optional for the full year at expiration of the first six months. Upon this basis the assessment as below is made, the contract to be entered into between the newspaper nd the railroads, account of advertising, as

Monday's Session.

Special to the Gazette. Galveston, Tex., June 22.—The legisla-tive committee charged with the investiga-tion of the International and Great North-

ern receivership began the third week of its session to-day. The confinitee was late coming together and it was 11 o'clock before a quorum was present with Senator Garwood in the chair. Chairman McKinney be-ing absent. It was then discovered that the official stenographers were absent. Motion was made to proceed without them. This was overruled on the ground that it would be impossible to keep a correct record of the proceeding without them. Finally the stenographers made their appearance and stated it was utterly impossible for them to write out their notes and present the committee with a full report of the proceedings each morning in the time at their disposal after each day's adjournment; that they were already more than a day behind with their report and at the rate the committee was proceeding it was impossible for them

to catch up.

The committee, after a brief consultation

The committee, after a brief consultation to be held adopted a rule that the sessions to be held hereafter should be from 10 to 1 o'clock p. m., instead of 2 o'clock as heretofore.

The question of adjournment for the day then came up, and the views of the counsel

were consulted. Gen. Robertson and Judge Geral, for their side, said it would be agree-able to them to adjourn, as some of the witnesses they wished to introduce were absent. Messrs. Finley and Duncan said they de-ferred to the wishes of the other side of the case and would abide by

THE PLEASURE OF THE COMMITTEE. In reply to the inquiry of the committee Judge Gerald stated that they had but a few more witnesses to introduce and their tes-timony would be brief. They, however, might wish to introduce a number of witnesses in rebuttal. This would depend largely upon what the other side brought

Messrs. Duncan and Finley stated to an interrogatory of the committee that it was impossible to state the extent of the testithey would wish to introduce until the other side of the case had closed and they knew what they had to rebut. Some of their witnesses were present. Others were not and would not come until wanted. They were as anxious to bring the investigation to a close as early as pos-sible as the other side were, but would insist upon the same time and opportunity to develop their testimony as had been granted the prosecution.

The committee, after briefly considering the circumstances, adjourned until 10 a. m.

In this connection it is desired to corre that portion of the report of Saturday night, relative to the introduction of the letters of Gerald and Whittaker, wh is stated that Messrs. Duncan and Finley "claimed it was going behind the resolu-tion," etc., and substitute the following: When Judge Gerald offered to read his let-ter to H. M. Whittaker, and Whittaker's letter in reply, Duncan and Finley said that they would not consent to the letters being received as evidence, but that they would not object to their being read, merely for the purpose of showing the connection of Judge Gerald and Mr. Whittaker with the origin of this investigation provided that origin of this investigation, provided that they, Duncan and Finley, be permitted to of-fer evidence as to the origin of the resolution introduced in the legislature for the creation of this committee. It was their desire and purpose to go into that feature of the

was issued to-day for the appearance of Maj. J. Waldo, general traffic manager of the Missouri. Kansas and Texas, who will be in Houston next Friday, to appear and testify relative to advertising contracts he had with the Galveston News while manager of the International traffic association, also the purport and object of such advertising contracts as understood by the rail-way companyies constituting said traffic asway companyles constituting said traffic as-

Mr. Gresham will be absent from the committee meeting to-merrow, important business calling him to Austin.

The attendance this morning was slim, as a majority of those who could get away

left for their homes Saturday night. They

Stubborn Kickapoos.

Special to the Gazette. Special to the Gazette.

GUTHRUE, O. T., June 22.—The members of the Cherokee commission who have been offering to treat for lands being occupied by the Kickapoo Indians, disbanded and left for their respective homes to-day, having failed, for the time being at least, to treat with the stubborn Kickapoos. Judge Warren Sayre of Indiana, a member of the commission, is now in this city, and in an interview said: "We did our best to treat with the Kickapoos but they proved sullen with the Kickapoos, but they proved sullen and uncivilized, and we could not even get them together."

The commission will return to their labors in August, and it is thought with better

success.

SWEET LIBERTY.

That's What Some Wise County Prisoners Longed for and Tried to Get.

Special to the Gazette.

DECATUR, WISE COUNTY, TEX., June 22. The prisoners confined in the Wise county all made an unsuccessful attempt to break ut late Saturday evening. have been allowed to stay in the corridor in the daytime so they could take exercise, and when the jailer went down to lock them in their cells for the night he found that they had broken the brake on the door and had also broken several bars, making a space almost large enough for a man to crawl through, and would doubtless have gained their liberty in a short time. There are only five prisoners in the jail now. John Sherwood, who is under a thirty years' sentence for murder: J. P. Robison years' sentence for murder; J. P. Robison, under a sentence of two years for an assault to murder; George McMillan, charged with burglary and theft of mules; Joth McDaniel, beft of horse and saddle, an G. B. Wise, for a posing of mortgaged property. The merit, says that only Sherwood, McMcMillan and McDaniel were implicated in the mischief and that the other prisoners had nothing whatever to do with.

whatever to do with Cyclone at Cairo, Ill.

CAIRO, ILL.. June 21.—A cyclone this afternoon did considerable damage, unroofing a great many houses, tearing up tree by the roots and knocking telegraph wire by the roots and knocking telegraph wires lown. L. M. Sass of the derrick was down. L. M. Sass of the derrick was blown from the bank across the river onto a sand bar. The ferryboat G. Wynn from Paducah, with an excursion party for Cairo just landing, was blown over to the Kentucky shore side. Outside of roofs and shrubbery very little damage was done in the city. There was no loss of life. shrubbery very little damage was done in the city. There was no loss of life.

Hog Cholers in Iow

WATERLOO, IOWA, June 22.—Hog cholera has broken out with unusual severity in several localities in this county. In Eagle township one farmer has lost his entire herd of 150. The disease seems to affect young animals mostly, and is made worse by long continued cold rains.

GEN. JOHN H. RICE OF THE SUN-FLOWER STATE TALKS.

The Future of the People's Party as He Sees It-Cleveland's Position Touched-Ingalls Roasted.

Special to the Gazette. Houston, Tex., June 22.-Gen. John H. Rice of Fort Scott, Kan., one of the leaders of the new People's party in the Sunflower state, was in Houston to-day. He talked about the future of the new party, and in his own peculiar and forcible manner skinned ex-Senator John J. Ingalls, Gen. Rice wrote the call for the late Cincipation of the call for the late Cincipation. John J. Iugalls, Gen. Rice wrote the call for the late Cincinnati convention, and although he does not believe in the sub-treasury scheme, thinks the seed is planted which, by proper care, will grow into a great political organization. "I think the People's party will cut a great figure in the campaign of 1892, my reasons for so thinking are based upon the belief that all the kindred or youngsters of the Farmers' Alliance, such as the Knights of Labor, Farmers' mutual benefit association, Citizens Alliance and Anti-monopolists, which are strong in Nebraska, Iowa, Illinois and Ohio, Towa. orasa, iowa, limbos and Onlo, will get together and perfect a union of interests. The Cardinal principles in all these associations are the same. How much strength the People's party will develop no man can at this time say. I don't consider the organization made at Cincin-

nati perfect by any means.

Continuing, he said no matter whether a
man has been a Democrat or not, the advecates of the People's party are in favor of free coinage of silver, and will never vote for Mr. Cleveland, in view of his position on that question.

Speaking of Cleveland as a possible nom-ince, Gen. Rice said that if the Democrats nominated him the People's party will nominated min the People's party win carry the Northwestern states, as well as Arkansas, Georgia, South Carolina and Tennessee. "Some of the Southern Demo-crats will laugh at this assertion, but they will not laugh after the election of 1892.
"Ingalls is down for good. He is down because he is not one of the people; because he has not the first emotion, sentiment or thought in common with the masses. On the contrary, he is a cold heartless, selfish, arrogant unscrupulous man, who loves nobody and hates everybody who does not bend the knee and fawn at his bidding. He is the most supreme demagogue and political beat in America. He shocked the people of Kansas and the United States by his notorious interview in the New York World ous interview in the New York World, in which he declared the decalogue and golden rule had no place in politics, and in the same interview he proclaimed himself to the world as a godless blasphemer by the declaration. I expect that in our search for example that handher (Paristransia)

HIGHER THAN HAS BEEN KNOWN FOR SEVERAL YEARS.

Cutting Land on the Kansas Side at a Fearful Rate-Some Well Grounded Predictions.

St. Joseph, Mo., June 22.-The Missouri

river is higher than for several years, and is still rising. All government work on the Kansas shore has been abaddoned and the government fleet moored to a place safety. The rapidity with which the waters are cutting away the Kansas bank can be best imagined when stated that halfacre lots of earth have been tumbling into the river since yesterday. Work-men who came in from Belmost men who came in from Belmost on the government steamer this morning state that the neck of land which now separates the river north and south is less than a quarter of a mile wide. At the rate the river is cutting the land away it would require but a short time to place Elmwood suburbs on an island and leave St. Joseph two miles from the river. This would also leave St. Joseph's million-dollar bridge standing over a dry spot, where the river once was. Several farmers have lost hundreds of dollars in wheat and corn.

KANSAS CITY IN THE SWIM. KANSAS CITY, Mo., June 22.—The flood in RANSAS CITY, Mo., June 22.—The flood in the Missouri rever reached the city last night, and water now stands two and one-thirty-second feet above the low water mark. An additional rise of to feet would flood the low lands along the and cause great loss to pipe of the rhe in the Missouri has batter unther ter of the Kaw until they said within two feet of flood tide.
